BIO

JULEE BLUE is an independent singer-songwriter based in Texas, blending the soul of classic rock from the 70s and 80s with the raw honesty of lived experience. Winner of the Josie Music Award for Best Female Pop Artist (2018)—selected from over 13,000 submissions—Julianne has built a reputation for her powerful yet tender voice, often likened to Jewel, Alanis Morissette, and Dolores O'Riordan (The Cranberries). JULEE BLUE has 15 years of experience performing live across the US. She actively promotes all shows on social media.

Songwriting since the age of eight, JULEE channels both personal stories and universal themes into her music. As a mental health advocate and therapist, she uses her platform to shine a light on the realities of mental illness—often writing from her own lived experience. Her artistry reflects deep influences from John Lennon, David Bowie, and Freddie Mercury of Queen, with a lyrical style that is both poetic and unflinchingly real.
